

INTERNATIONAL CYANIDE MANAGEMENT INSTITUTE

Cyanide Code Auditors

Updated August 30, 2010

Code auditors must meet criteria for experience, expertise and lack of conflict of interest. ICMI reviews the qualifications of Code auditors upon receipt of the Auditor Qualifications Form accompanying Verification Audit reports. Auditors may also elect to submit their credentials for ICMI approval prior to conducting a Code audit.

The following individuals have submitted their credentials to ICMI and, at the time of submission, were determined to meet ICMI's criteria for lead and/or technical expert auditors. ICMI cannot guarantee that these individuals have maintained their professional certification or otherwise continue to meet the applicable requirements. Moreover, compliance with ICMI's conflicts of interest provisions can only be evaluated with respect to an auditor's work for a specific company, and therefore cannot be assured based solely on their professional certification, experience and expertise. This information is provided to assist companies in identifying potential auditors and is not intended as an endorsement of any individual auditor.

A company hiring an auditor for a Code Verification Audit is fully responsible for ensuring that its auditor(s) meet all applicable ICMI criteria at the time the audit is conducted. Audits conducted by individuals that do not meet these criteria will not be accepted for verification purposes regardless of an auditor's inclusion on this list.
