## Cyanide-Related Operations Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years experience

Auditor	Yrs.	Relevant Position Titles	Types of Operations
Mark Latham	2	Principal Environmental Engineer Golder Associates Pty Ltd	Since August 2006, Mark Latham has provided environmental consulting services for the mining, manufacturing, water resources and financial services industries. Approximately 40% of his time has been spent with cyanide production facilities and gold operations using cyanide including review of new mine design proposals and operating plans, cyanide code pre-certification, pre-operational and certification auditing.
Mark Latham	3	Senior Consultant (HSE Services) The Shell Company of Australia Limited	Between 2001 and 2004, Mark Latham provided health, safety and environmental consulting services to support the petroleum-related business interests of Shell with customers in the mining, oil and gas, transport and defence sectors as well as Shell's own operations for the refining, distribution, retail, commercial, marine and aviation businesses. Approximately 40% of his time was spent auditing facilities in support of business asset transactions and customer contracts. Approximately 20% of his time was related to mining settings.
Mark Latham	8	Principal Environment Consultant SHE Pacific P/L (Orica)  Environmental Management Specialist ICI Australia Operations P/L  Environment Consultant ICI Australia Operations P/L	Between 1992 and 2000, Mark Latham was corporate land protection steward for ICI Australia Ltd (Orica Australia Pty Ltd after ICI Australia was restructured in 1997). During this period, he developed and maintained those elements of the company Safety Health and Environment Management System that addressed risk management re soil and groundwater contamination across all company operations in Australia, including manufacture of cyanide, explosives, paints, industrial chemicals, plastics and petrochemicals. During that period he was aware of prevention and incident response issues associated with Orica's cyanide manufacturing operations at Yarwun, Queensland for the purposes of corporate programs. He informed the business of risk management options but was not responsible for the new facility design standards or incident management strategies adopted.

## Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
