Cyanide-related Operations Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years experience.

Auditor	Yrs.	Relevant Position Titles	Types of Operations
Kent R. Johnejack	17+	Registered Professional Engineer (Civil); Senior Engineer/Associate; and Certified Environmental Auditor	Since 1995, Kent has worked in the mining industry as a consulting engineer and hydrologist. He has been involved with groundwater and surface water permitting, closure, remediation, spill cleanup, due diligence, waste characterization, sampling and analysis, civil design, construction oversight, regulatory compliance inspections, and auditing. Prior to 1995, Kent worked in land development, infrastructure, and low-level radioactive waste projects.
Ivon Aguinaga	11+	Senior Project Engineer	Since 2000, Ivon has worked in the mining industry as a consulting engineer with emphasis on environmental mine permitting, regulatory compliance auditing, surface water engineering, environmental impact assessments and baseline studies.

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.

Signed	Name	Signature	Date
Lead Auditor* and Mining Technical Specialist	Kent R. Johnejack		November 14, 2012
